

Follow-up on telephone intervention to High-Risk Gamblers

Identification - Investigation - Evaluation - Action

Swedish Gambling Authority

Follow-up is important to determine whether the responsible gambling measures taken have had an impact.

If a license holder at a follow-up check sees that the previous measures have not been sufficient to protect the player, further measures should be taken.

Through an overall assessment of the customer's gambling behavior and previous responsible gambling measures taken, the license holder can determine what measures are appropriate to take.
